iDECIDE SCHOOLS TOUR

»» All it takes is one decision

WHO IS iDECIDE?

The iDECIDE School Tour will return again in May 2023 joined with one of the world's most sought-after youth communicators, Reggie Dabbs.

Packed with energy, humour, music, dance and loads of real talk; the seminar content is specifically created to empower students through the challenges they face every day. iDECIDE develops positive self-talk, providing young people with the tools to face bullying, depression, suicidal thoughts, low self-efficacy and personal resilience.

Students that attend an iDECIDE School Tour Seminar will be challenged to consider how they use their words and actions to bring positive change to their world.

The iDECIDE TOUR has been delivering seminars since 2010 - speaking hope and life to private and public schools throughout Brisbane, regional Queensland, Adelaide and Launceston.

In 2023, we would love for you to consider partnering with us, and together we can see a generation of young people *find their voice, take action and create change in their world.*

iDECIDE is a program of non-profit organisation

ABOUT REGGIE

"You had a direct impact on my students..."

For more than 20 years, Reggie has spoken with hundreds of thousands of students in Australian schools. Reggie's unique blend of humour, music (he plays saxophone professionally) and an incredible personal story of perseverance, gets students to seriously think about the decisions they make.

Raised by foster parents, Reggie understands what it is like for kids who are struggling with adversity. Reggie's foster parents instilled in him strong values and the fact that in every situation he faced, he had a choice. What he did with those choices was entirely up to him. Reggie shares with students often, **"You can't change your past, but you can change your future"**.

"I've been bullied my whole life and I was ready to give up on life this week but I haven't because you said if you could make it, so could I."

School Student

"You had a direct impact on my students. Your charismatic presentation was both effectual and influential. The students did listen and they did act."

Allan Evans, Principal
